Equipment Features:

- New development with 2 hoppers and suction hose.
- The RAMBO-HC10DUO effortlessly shreds branches up to a thickness of Ø 100 mm.
- Convenient operation due to large feed hoppers.
- Integrated chassis with pneumatic studded tires for quick and easy relocation even on rough terrain.
- The reinforced, professional duplex cutter drum significantly increases the feed force, allowing the RAMBO-HC10DUO to process more unruly material.
- Adjustable ejection flap.
- Feed hopper & ejection hopper can be folded to the side for cleaning the blade drum.
- With cover and operating hours counter
- Flail blade for processing / shredding the leaves, which also shreds the material sucked in via the suction hose.
