

# RAMBO-HC10PRO

*Gasoline shredder with duplex blade drum*

## PRODUCT-INFORMATION

### Technical Data

### RAMBO-HC10PRO

Engine	4-stroke OHV-petrol engine
Displacement	212 cm <sup>3</sup>
Engine power	4.4 kW at 3.600 rpm
Gasoline	Petrol unleaded
Gasoline tank volume	3,0 Liter
Engine oil tank volume	0,6 Liter
Starting	Recoil starter
Branch diameter Ø, max.	100 mm
Knives speed	2.000 rpm
Weight (net / gross)	135 / 145 kg
Guaranteed sound power level <small>LWA</small>	118 dB(A)
Packaging dimensions (L/W/H)	880 / 565 / 840 mm

Art. No.:  
RAMBOHC10PRO

EAN: 40 47424 00791 4

Foldable feed & discharge hopper

### Equipment Features:

- The RAMBO-HC10PRO effortlessly shreds branches up to a thickness of thickness of Ø 100 mm.
- Convenient operation due to large feed hopper.
- Integrated chassis with studded pneumatic tires for fast, easy moving even in rough terrain.
- Due to the reinforced, professional duplex blade drum, the feeding force increases considerably. As a result, the RAMBO-HC10PRO now processes even more unruly material than the entry-level RAMBO-HC10.
- Adjustable ejection chute as well as ejection flap.
- Feed hopper & ejection hopper can be folded to the side for cleaning the blade drum.
- With cover and operating hours counter
