

BSF-15

Stump Grinder

PRODUCT-INFORMATION

Technical Data

BSF-15

Engine	4-Stroke OHV Petrol Engine
Displacement	420 cm ³
Rated Power	9,0 kW at 3.600 rpm
Fuel	Unleaded Petrol
Tank Volume	6,5 Liter
Oiltank Volume	1,1 Liter
Engine Starter	Recoil Starter
Grinding Disc Ø	300 mm
Grinding below Ground	235 mm
Grinding above Ground	600 mm
Number of Teeth	9
weight (net / gross)	110 / 115 kg
Packaging (L/W/H)	1060 / 800 / 580 mm

Art. Nr.: BSF15

EAN: 40 47424 00501 9

Equipment Features:

- The BSF-15 is a light, handy tool and can mill small tree stumps and root systems from 600 mm above ground level to 235 mm below ground level.
- Thanks to its design, the stump grinder can be used in narrow places with a clearance width of only 80 cm.
- A powerful engine and 9 carbide-tipped milling teeth ensure excellent results.
- The ergonomic, adjustable handle ensure easy operation and facilitate transport.

Normally, removing roots with an excavator or tractor causes a lot of damage. With the root cutter, tree stumps are cleanly peeled out and no damage is caused to the property.
