Equipment features:

The LUMAG EB-400PRO is an easy-to-operate drilling rig and enables the excavation of holes in the ground up to a diameter of 350 mm without much effort.

- This robust earth drill finds its use in forestry, gardening and landscaping.
- Ideal for drilling fence posts, foundation and planting holes as well as drainage shafts with the appropriate drilling tool.
- A shaft extension allows the drill to drill an additional 455 mm deeper.
- Stepless speed control, carburetor with primer pump, maintenance-free ignition (CDI), drill holder in solid steel design.
